Project looking for partner(s)

Institution / Department:

Aston Univeristy

Country:

United Kingdom

Name:

Hai Zhuge

Position title:

Professor

E-mail:

h.zhuge@aston.ac.uk ^[1]

Expertise needed / Role in project:

I would like to play a partner role for bidding this project.

Partners already involved:

I have done some research on [Cyber-Physical Society](#) ^[2] in recent years.

Abstract:

I am interested in the following two aspects:

- Information Confidentiality - includes the design and development of novel methods to prevent information leakage and enhance information integrity in mobile computing.
- Human Factors - modelling human interaction, understanding of human factors in decision making, and understanding human needs and requirements in smart city.

Topic:

Explainable Machine Learning-based Artificial Intelligence
