Partner looking for project

Institution / Department:

ISIC- HE-Arc- University of Applied Sciences

Country:

Switzerland

Name:

Hatem Ghorbel

Position title:

Professor

E-mail:

hatem.ghorbel@he-arc.ch ^[1]

Research areas of your institution:

We are a research lab working in different NLP issues related to sentiment analysis, text analytics, social network, social influence and trust.

We have a theoretical and practical experience in the different tasks of NLP from lexical to discourse analysis within monologue and dialogue structure.

We intend to develop a project dealing with the sentiment and emotional analysis in social media from the perspective of textual analysis and social graph analysis, and we are looking for european partners to join us to mount a project in this axis.
