

Projects Seminar 2015 - Madrid

The *Projects Seminar 2015* organised in Madrid on **March 18-20** brings together the projects funded in the framework of CHIST-ERA, and the funders (the research funding organisations in CHIST-ERA). The main objective is to contribute to the exchanges between the projects, and to facilitate the follow-up of the projects by the funders and the review experts. In this context, the objectives of the seminar are:

- Remind the project partners of the *CHIST-ERA Follow-up* objectives and process and more generally about the expectations of the funders;
- Gather impression about the funded projects, meet in person and listen to the researchers presenting their projects;
- Strengthen the scientific communities related to the topics of the CHIST-ERA calls and support effort toward interdisciplinary research.

As a further objective, the seminar contributes to the assessment of CHIST-ERA calls.

Programme

The projects presentend arise from the 4 first calls of CHIST-ERA; they fall in the scope of 8 different topics. The presentations are grouped by topic and the sessions gather topics close to each other, as summarised in the table below. The full programme is downloadable in [PDF format](#) ^[1].
