

Conference 2019 Registration

Registration is closed.

The participants in the conference are strongly encouraged to propose a short talk (10-12') and/or a poster (A0, in portrait format).

The proposed talk should aim at highlighting promising high risk/high impact research direction(s) that could possibly feed into the Call 2019 definition. The deadline to submit a talk is extended to May 27. The talks will be selected by the conference organising committee end of May.
