

## Projects of Call 2010

### Selection Procedure

The evaluation of the proposals is performed by an international Evaluation Panel assessing the following criteria:

- Scope: the project must be within the scope of the call
- Scientific excellence
- Potential impact
- Quality of the consortium
- Implementation and management

The Evaluation Panel compiles a ranking list of the proposals. Based on this list, the CHIST-ERA Call Steering Committee proposes projects to be funded to the National Funding Organisations. Final decisions are made at the national level.

### Results

The list of the projects recommended for funding by the CHIST-ERA Call Steering is available as attachment; to read the summaries please click [here](#) [1].
