Research creates knowledge.

# COS, what???

Research creates knowledge.

# History of the COS

- COS = **C**HIST-ERA **O**pen **S**cience working group

- Founded in July 2019 following an initiative of the Steering Committee

- Rooted in two aspects

  1. Importance of Open Science (Scientific transparency, Reproducibility, Visibility and democratisation of research, avoiding triplicating payment of the same research)

  2. Lack of Open Science policies at the multilateral level

- Strategic positions in Europe in favour of Open Science

- Increasingly common practices within the research community

☞ *Fill in these gaps within CHIST-ERA*

Computed by Olivier H. Beauchesne and SCImago Lab, data by Elsevier Scopus

# Our Vision

Research creates knowledge.

# Open Excellent Science without Frontiers

1. Excellent transnational research

2. Sustainable access to Excellent science

3. Full transparency of the science (administration, research, output)

# Achievements

# What we have done so far…

Open Access to Publication and Research Data Policy at National/Regional Level: Overview Table
(see annex for further information)

| Country | Organisation | Open access to publications | Open access to research data |
|---|---|---|---|
| Austria | FFG | No | No |
| Austria | FWF | Yes | Yes |
| Belgium | F.R.S.-FNRS | Yes | No |
| Belgium | FWO | Yes | No |
| Bulgaria | BNSF | No | No |
| Czech Republic | TACR | No | No |
| Estonia | ETAE | No | No |
| Finland | AKA | Yes | Yes |

• Survey on Open Science

Research creates knowledge.

Use-Inspired Basic Research

## Next Steps

# A tentative timeline

- Exploit the Open Science landscape with a panel of international experts (*Today*)

- Build a draft of an open science policy (*May 2020*)

- Negotiation with the partners and implementation for Call 2020 (*September 2020*)

Research creates knowledge.

**Do you have any *open* questions?**

Research creates knowledge.
